

## BETTER

Pack your bags and hit the road again  
I know you're feeling slow again  
But there's some place we've got to be  
Get your stuff, it's gonna get rough again  
But my love's enough and when  
We get there you will see  
It was worth the

Rain or shine you'll be just fine  
I'm by your side, forever you and I

There's a tear drop sliding down your cheek  
And you can feel the heat  
Is rising all around  
Yes you're shaking, starting to break I see  
I have been there, believe me that the dawn is  
So much brighter than the night was

Dark'ning skies fill your horizons  
Don't be fooled by their disguises

*There's a sun and there's a moon and  
We will fly between the two  
With sunlight dancing off our wings  
Believe me when I say that things  
Get better*

This is just a touch of mortality  
And yes, death is ugly  
And looks a lot like hell  
But don't break your back putting a brave face on  
There's no need, his power is gone  
All will be well, all will be well

*chorus*

[[I can do all things in Christ  
I can do all things in Christ]]  
Let us throw off all that hinders  
And the sin that clings and grasps  
And run with perseverance  
The race Christ won for us  
Fix our eyes on Jesus  
The author of our faith  
For all things work together  
For our sake  
[[I can do all things in Christ x4]]
