

Breathe In Me

Breathe your breath in me
I need to feel you close to me
I need to hold you as you hold me
I need to feel
My one thing that's real
I need to be

You're everything I crave
Bring back home where I am safe
Take all that forces me from your way
I need to see you
I need to feel you
I need to be

**Close to the living
Near to the knowing
Child of the loving, breathing God
Draw me beside you
Father I need you
Love me with all of your heart**

Tell me that I'm yours
Cleanse me with fire and make me pure
Take away all that binds and burns
Help me to see
Your love in me
I need to be

Free me of this pain
Burn away all that sullies your name
Rid me of all the dark I feel
I need to find
Your peace of mind
The source of all life
I need to rise

**Close to the living
Near to the knowing
Child of the loving, breathing God
Draw me beside you
Father I need you
Love me with all of your heart**

Love me with all of your heart

x2

Instrumental

Chorus

Love me with all of your heart
