

Eli

My God is strong, My God is strong
My God is a fortress to whom I run
My God is strong, My God is strong
My God is a rock that I will stand on

*When the wind and rain wash all away
All that remains is of you, is of you
When the storm clouds rise in the dark'ning skies
When the waves roll high
You are true, You are true*

My God is strong, My God is strong
My God is a rock that I will stand on

[Instrumental verse]

My God is light, My God is life
My God brings peace to all who strive
My God is fire, My God is flame
My God is holy, righteous, name above all names

*When the wind and rain wash all away
All that remains is of you, is of you
When the storm clouds rise in the dark'ning skies
When the waves roll high
You are true, You are true*

My God is fire, My God is flame
My God is holy, righteous, name above all names

My God is strong, My God is strong
My God is a rock that I will stand on

[Instrumental verse to end]
